### A WARNING NOTE.

All along the line of march of the great parade are being constructed for the convenience of the people who desire to witness the grand pageant Some of these platforms will be obliged to bear the weight of many thousands of human

Are they being erected with a full apprecia flan of the awful consequences that might follow faulty construction?

Is every possible precaution being taken to avert easualties which might turn the festivities of the Centennial into a scene of death

Many such public occasions have been sad deped by fatal accidents attributable to gros carelessness. THE EVENING WORLD Sounds that it may bring additional security to the lives and limbs of those who will participate in the Centennial pleasures.

The authorities should look to these matters with the most conscientious care.

Inspect and reinspect every platform that is erected. Double strengthen every possible point of weakness in the structures.

Let us have no blood-stains on this great

### IT NEEDS INVESTIGATION.

The suggestion, that the charging of the doomed wires by the electric companies, whereby the lives of the employees of the Department of Public Works were jeopardized white obeying the mandate to cut down the wires should be investigated, is a good

If there are among the officials of the ele tric companies those who, in their spisen against the public servants, would do an act which might kill innocent workingmen, let it be known.

That the charging of the wires, after re celving notification to turn off the currents, was a menace to the safety of the workingmen is obvious. Why were they charged? The facts about this matter should be

thoroughly investigated. So many relatives of WASHINGTON are turn.

that there was a will contest pending over the effects of the deceased "Father of His Country.

### THE CHILDREN'S BILL [From this Morning's World, ]

Opposition to the bill giving a right of appeal and review in cases of the commitment of children to the care of charitable or benevolent institutions proceeds almost entirely from the officers or patrons of these societies, and is based upon an impeachment of the character and common sense of the Supreme Court Judges of this State.

An eminent ecclesiast says that within thirty days the condition of an abused or neglected child committed to a protectory s so improved that the Judge before whom 't was brought would see no evidence of its original wretched state. The witnesses who testified upon the commitment "may have been conveniently spirited away," he argues, and the Judge is "more than likely" to send the child back to a life of suffering and sin.

But cannot the officials of the institution testify as to the condition of the child when it was received? Are the officers of the Society which searches out cases of cruelty to children likely to be "spirited away," so that they cannot tell the Judge the facts upon which the child was committed? Are Judges of the Supreme Court more likely than police magistrates to surrender a child to unfit guardianship? Are they anxious to destroy little children?

The wrong sought to be remedied by the Children's Bill is a real one. The objections to it are flimsy and fallacious. The Legislature will honor parenthood, protect children and do simple justice by giving a right of appeal in these cases.

## Forced the Boy to Drink Whiskey.

LONG BRANCH, N. J., April 18.—Eddie Travers, twelve years old, while walking along street, was siezed by Russell Slocum. the street, was stered by Russell Slocum. Edward Patrick and John Bennett, three young men. The two former held him while Bennett forced a quart bottle of whiskey in the boy's mouth and forced him to drink half it contents. The lad was found insensible some time afterwards and his assailants were soon arrested, Blooum and Patrick were fined \$50 each and Bennett was sentenced for two months in the County Jail.

He Finds Some Things to Criticise as Well as Praise.

Having awarded the prize in the American Girl Contest, the next thing in order was to present the fortunate winner with the gold

Accordingly a reporter of THE EVENTRO World took one of Culver's cannon-ball express trains yesterday afternoon for Parkville. He found Mr. Hammond's house, a neat two

story cottage, with a pleasant yard with real grass, on Foster avenue, Mr. Hammond was not at home, having gone

to a baseball match and would return at 6 or 7 b'clock in the evening, the hour depending on the fate of the contest. Culver's 6 o'clock express train flew into Parkville. Among the baseball enthusiasts who

alighted from the train was Mr. Hammond. The gentleman who had written the best de scription of the typical American girl is a solid, clear-based business man of medium height and middle age and is an Englishman.

He has been ten years in this country and had become so far Americanized that he had just been throwing up his hat over the great Amer-ican game.

been shrowing the beautiful and accountant for an ican game.

Mr. Hammond, who is an accountant for an English firm in New York, was surprised to learn that he had won the brite offered by The Evening World for the best description of the typi-

that he had won the prize offered by The Eveniso World for the best description of the typical American girl.

When the reporter presented him with the
prize—a double eagle with a particularly handsome American eagle on it—Mr. Hammond
lighted as India eigar, and said:

"Though I have written about the typical
American girl, I married a typical English girl.
I have pever undertakan any literary work,
though I occasionally scribble.

"I showed my manuscript to some of my
friends and they said. You have not described
the typical, but the ideal American girl.

"I choose to describe the highest type of American girl, a woman like Mrs. Cleveland or Lady
Randolph Churchill. Of course there are various types of American girls—in the city, the
country, the East, the West, the South.

"What most impresses me in respect to the
American girl is her self-reliance and the deference paid her.

"The women in England are not treated with
as much deference as women in America. Their
position is more a subordinate one.

"The women in England are not treated with
as much deference as women in America. Their
position is more a subordinate one.

"The self-reliance of the American girl is due
to her liberty and her education. Your public
schools have educated all the young women of
the country, and given them an advantage over
the young women of England. The deference
paid the American girl is due to her education
and intelligence.

"As you cak me what adverse criticism I
might make on the American girl, I will say
that to me she seems to lack two things—repose
and religion.

"The English girl has more repose, and is

and religion.
The English girl has more repose, and is

more religious."
All the articles handed in for the contest were interesting; many were admirable. Mr. Hammond had the advantage in the contest of being a foreigner. It enabled him to see the American girl with new eyes and gave him a standard of

THE PRIZE-WINNER'S RECEIPT. Received from THE EVENING WOLLD a golden double eagle, being the prise offered in a competitive description of the Typical American Girl; with thanks, April 17, 1880.

### WORLDLINGS.

The Yturbide, in the City of Mexico, is probbly the grandest hotel in the world. It was built by the Governor for his palace and cost \$3,000,000. It contains a room used by Gov. Yturbide for a chapel that is frescoed in solid

Senator Ingalls is one of the neatest men in longress. He is very careful of his attire and his black frock coat is always tightly buttoned. He is fond of bright colored handkerchiefs and

Secretary Windom's daily lunch is a very fru gal meal, consisting only of a bowl of bread and milk, but as a consequence he has a good digestion and a correspondingly equable temper. John D. Jonnings, the Chicago real estate mil lionaire, who died a few days ago, was called the ing up just now that it would almost seem father of the ninety-nine-year lease system. His estate amounts to more than \$5,000,000.

## FOUND \$30,000 IN CHECKS.

But Payment Was Stopped and There Was Only \$2.50 in Cash.

An office boy from the Merchants' Bank of Canada, after collecting yesterday, stopped at the Post-Office and left the big leather pocketbook containing \$30,000 in checks and \$2.50 in

book containing \$30,000 in checks and \$2.50 in money on the window ledge.

When he went back he found it gone. The checks were not negotiable without indorsement and their respect to byrnes acquainted with the loss.

Then Frederick H. McMasters, a stenographer in Anthony Constock's office, brought the pockethook in. He and a companion had taken it from a newsboy. They each received \$5.

# THE PRIZE-WINNER. THAT DANCE NOT OFF.

Mr. Stanton Will Manage the Quadrille d'Honneur.

Mr. McAllister's Resignation Formally Accepted Last Evening.

The Police Force to Act as the Committee on Public Comfort.

The establishment of a Bureau of Public Comfort, in accordance with the suggestion made by THE EVENING WORLD, will insure freedom from worriment and inconvenience to thousands of strangers who will visit New York during the Centennial Celebration.

The Committee have done wisely in securin the co-operation of the Police Department in carrying out this plan, and, as the result of sev eral conferences, it was decided yesterday that the captains of the various precincts should have entire charge of the housing of visitors. Each police station will be a separate Bureau

of Information, and will contain a list of all the respectable boarding and lodging houses in the precinct where rooms are to be had. All that strangers need do when they come to

town is to ask the first policeman they meet to direct them to the nearest precinct station house, and there they can inspect the list and make their own selection with the advice of the Captain and Sergeant in charge, or they can ask to be directed to any part of the city where they may desire to obtain accommodations, if the precinct which they first visit does not suit

the precinct which they must be them.

The addresses of boarding-houses which have already been left at the Committee's head-quarters have been turned over to Supt. Murray, who will distribute them among the various precincts in which they are located as well as preserve a complete list at Pelice Headquarters, where strangers may also go to obtain information.

where strangers may also go to the control of the lists brought in by the natrolmen in the big boarding-house districts are fast filling up.

Many of the latel proprietors are also in cooperation with the police, and are assisting them in obtaining addresses. If there is a single stranger in New York during the Centennial week who fails to find counfortable accommodations for himself or his family it will be his own fault, for when New Yorkers once make up their minds to be hospitable there is room and to spare for all.

Preparations are making for a grand display of decorative art at the Sub-Treasury Building at Wall street and Broad street, which is really the central point of interest of the whole celebration. An elaborate plan of exterior ornamentation has been designed, and will be executed by Duncan & Johnston, the Fifth avenue decorators, for the occasion. ors, for the occasion.

The public grand stands, which are to be the largest over constructed in this city, are being erected by A. G. Bogert & Brother. The dimensions of the reviewing stand on the east side of Fifth avenue at Madison Square are 733 feet long by 25 feet wide; the Worth Monument stand, 250 feet long by 48 feet wide; the Washington Square stand, 400 feet by 10 feet; the Reservoir Park stand, 470 feet by 25 feet, the City Hall Park stand, 470 feet by 50 feet, all of which will sear 29,090 people. There are still larger stands to be erected on Union and Washington Squares, besides all the private stands which are to be put up all along the line of march. The firm of Bogert & Bro. erected the first large stand ever built in this city in 1847 for the parade of the First Division of the State militia. Its dimensions were 133 by 110 feet. PUBLIC GRAND STANDS.

THE INDUSTRIAL PARADE.

It is estimated that there will be a hundred thousand men in line in the industrial parade, and the question that is troubling the Marshal and his aides is, how can they manage to take care of such a legion of paraders? The official figures show that at least this number intend to turn out, and many applications have not yet been acted upon.

Subscriptions to the Garnan, American THE INDUSTRIAL PARADE.

Subscriptions to the German-American section of the parade have been so liberal that this part of the procession bids fair to be the chief fearer of the day. At a neeting of the Entertainment Committee ast night Mr. Edmund C. Stanton was formally elected Director of the ball. His duties will be practically those assigned to Mr. Ward McAllis-

ter.

It will act under the supervision of the Entertainment Committee and of the Special Committee of Managaer, which is composed of Messra,
Fish, Stokes and Oling Mr. Wightrop, one of the
five members of the sub-committee, being absent
in Europe, Mr. Stante wal, also be Chairman
of the Floor Committee.

The music at the Lail will be by a stringed
band of 100 picked musicians under Bandmaster Lander. They will be divided into two
orchestras of fifty each, which will relieve each
other, so that the music will be practically continuous.

The question of accommodation, in view of the great crowd expected, has become a very practicable one. It is fateaded to limit the attendance to 0.000 people, which is well within the capacity of the hall, as there was 0.000 at the Old Guard Ball in the Metropolitan. There will be 17,000 square feet of dancing room and 12,000 square feet of supper room. This is not space—that is, outside of all impediments of every description.

At the Inauguration Ball at Washington there was 28,000 square feet available for dancing, and there were 14,000 persons present. It is not thought, therefore, that there will be such a crush as to make dancing impracticable.

After the opening quadrills d'honneur almost almost all the dancing will be in waltz music. As the time for the event approaches many persons, who at first thought they would not be able to attend, have changed their minds, and many letters have come in within a few days from members of the General Committee and from different guests who have notified the Committee that they could not be present in which these gentlemen now say they have reconsidered their decision. In many cases, however, at least so far as the banquet is concerned, the Committee are now unable to find place for them.

Special favors are to be shown the Diplomatic

the Committee are now unable to find place for them.
Special favors are to be shown the Diplomatic Corps at the ball.
It has been impossible to give to each Legation a box, for the reason that there are not boxes enough for the purpose, but one large box has been reserved for their use, and they have also been given a large private room for their own use, a distinction only shown to the President.

President.

The Entertainment Committee, in their deeire to treat the Diplomatic Corps with
distinction, say that they have gone
to the limit of their facilities, and have
meurred some criticisms among the other subcommittees on account of their liberality. Already all the foreign Ministers have accepted
the invitation of the Committee to be present at
the ball.

the ball.

It has been found impracticable to invite all the secretaries of legations, or to extend the invitations so as to include all the families and attaches of the legations.

The ball will begin at 8 o'clock, and by 9 o'clock or shortly after it will be in full splender. It is intended to begin, thus early so as not to exhaust the President and other guests for the long and trying programme of the following day.

day.

There is the greatest pressure on the Committee for boxes and tickets. In one case nearly \$2,000 was offered a committeeman if he would

get a box for the evening, and there have been numbers of offers of \$1,000 for boxes.

There will, however, be few changes in the printed list of box-holders.

Stuy Fish, in a letter to the General Committee received this morning, says that the Entertainment Committee at its meeting last night received and manimously accepted the resignation of Ward McAllister as a member of the Committee and manager of the ball and banquet.

quet.

A large force of carpenters began work on the City Hall grand stand this morning. At noon the foundations all along Broadway at the lower end of the park had been laid. A narrow space about four feet wide is left next to the railings for pedestrians. MAYOR GLEASON WANTS A STAND.

He'll Build It at His Own Expense If New York Will Let Him.

Mayor Gleason, of Long Island City, called on Mayor Grant this morning. He said: "I had to run away from home to escape the portunities of the school children and school

ma sins.

"They all want to see the Centennial parade in New York. I'll build a stand for them at my own expense if the New York authorities will let me do it."

The big Mayor was referred to the Board of Aldermen, who will probably grant him the desired paraission.

THEY DENY THERE'S A SCHEME.

Mr. Ackerman Explains It All Away by Figures. A morning newspaper pretended to-day to expose a Tammany Hall scheme to evade the civil-

service rules in the examination of James O'Sullivan for the position of storekeeper in the City

livan for the position of storekeeper in the City Record office without competition.
It announced that ex-Congressman Cockran, ex-Register Reilly, in whose district O'Suillivan resides: Supervisor McLaughlin and Chief Examiner Gunther K. Ackerman were in the scheme.
The latter said to-day that there was no scheme of the sort mentioned and, so far from being an advantage, the fact that less than three were being examined militated against Mr. O'Sullivant of the sort mentioned and the said that the state of the sort mentioned and the said that advantage, the fact that less than three were being examined militated against Mr. O'Sulli-van's chances. Under such circumstances the rules require a standing of 85 per cent., while where more than three are examined only 70 per cent, is re-quired.

SET FIRE TO THE BED. Willie Kennedy While Looking for His

Shors Starts a Conflagration. William Kennedy, twelve years old, who lives on the fourth floor of the five-story tenementmorning to look under the bed for his shoe.

In the preoccupation of his search he set fire
to the mattress, and in an instant the bed was

on fire.

The floor is occupied by William Kennedy, sr., his wife and three children, all of whom made their escape, the children being helped out by Policemen Levy and Werschberger.

A damage of \$200 was done.

Hartington Congratulates Parnell.

ISY CABLE TO THE PRESS NEWS ASSOCIATION, I LONDON, April 18.—The Marquis of Harting on, in his speech last night, congratulated Mr. Parnell on the completeness of his vindication with regard to the forged letters, but he preferred to hold judgment in suspense on the other issues before the Commission.

Mr. Parnell has engaged Sir Charles Russell, Mr. Asquith and Arthur Russell to conduct the libel suit brought by him against the Timer. The trial of the case will take place in London in the Autumn.

Arrest of a Michigan Lothario. Inspector Byrnes has in custody at Police Headquarters a well-dressed, middle-aged man, named Waldron, who was arrested last night on a warrant from Michigan, where he is wanted for alienating the affections of a married woman, a felony under the laws of that State. Waldron will be turned over to the Michigan

officers. Shot Over a Game of Pool. Henry Meyer and Clark Bugsby quarrelled over a game of pool at Broome and Chrystic over a game of poor as broome and crystic streets early this morning. Bugsby was getting the worst of the fight, when he drew a revolver and shot Meyer through the left arm, the bullet lodging in the left side. The wounded man was taken to Gouverneur Hospital and Bugsby was locked up in the Ediridge street station.

Wounded by His Workman, Patrick Leary, an umbrella-maker, doing business on Thirteenth street, near Avenue D, quarrelled with one of his German workmen last night and received a severe sealp wound from the latter, which necessitated his removal to Bellevue Hospital. His assailant escaped.

Diner-Out-Waiter, how's this? I have just discovered a collar-button in my soup.

FROM THE CITY'S WHIRI

BITS OF METROPOLITAN LIFE GATHERED HERE AND THERE. A Hammock Used in a Tog-of-War with

Disastrous Results. The manager of the upholstery department of one of our large uptown stores has not forgotten the days when he was behind the counter himself, and is therefore inclined to

be lenient with the clerks under his control. In relating instances of how the "mice will play," the genial manager related the

will play," the genial manager related the following:

"It was a wet, dismal day, and customers were few and far between. The head of our department was out, and we were seeking some method of killing time.

"Matching pennies was indulged in, as well as several other gambling games, until the conversation turned on athletic sports.

"There were four of us, pretty well matched in point of strength, and we decided to indulge in a tug-of-war.

"A Mexican hammeck was procured from another department and twisted to form a rope.

"Two then grasped it at each end, and upon an agreed signal the tugging began.
"Unlike most tups-of-war this was waged in comparative silence, only our deep breathing showing the violence of our

breathing showing the labors.

'For a few minutes neither side gained an advantage, but feeling the necessity of speedily ending it, both sides by common consent threw all their power into one convulsive strain.

'There was a succession of tiny cracks, and the next instant the valorous teams were

and the next instant the valorous teams were deposited in two separate heaps at opposite sides of the room, each side having possession of a mass of broken strings. The hammock had parted squarely in the

"Beyond a few slight bumps none of us were damaged to any great extent, and the next thing in order was to dispose of the broken hammock, which was done by dividing it into equal parts, which we secreted in our pockets and disposed of when we left the store at night."

The window nad been to have been found alive.

Mrs. Cross denies the report that Mrs. Sudon the gas with suicidal intent, and said to-day that there was no cause for such an act, the relations between Mr. Sudon and his wife being very pleasant.

a Time Record. It frequently happens when sending messages to suburban telegraph offices from the main office that the operator at the suburban end leaves the switch open, or for some res son is away from his desk.

In such a case the operator on this end in scribes on the back of his message the time of calling, supplementing it with the words :

of calling, supplementing it with the words:

"Called; can't raise."

In many cases the "call" may be sent a dozen times, and each effort is religiously inscribed on the back of the message, in order to exonerate the operator should any complications arise from delay.

Recently there entered the employ of the Western Union Company a typical New York boy, bright almost to "freshness" and quick in observation.

Owing to a press of business the boy was

Owing to a press of business the boy was detained at the office the other evening, and when he was finally permitted to go home it was close to 11 o'clock.

When he reached his house, uptown, he found the door locked, and, giving a vigorous tug at the bell, he awaited developments.

No answer being received, he drew a piece of chalk from his pocket and inscribed on

# Sleepless Nights

Tired Waking.

come sloopless. The weak, tired and utterly exhausted feelings following wakeful, disturbed and unrefreshing nights are terrible. What wonder that there are so many shattered nerves, tired brains and debilitated bodies, when we consider the thousands who pass sleep-less or disturbed nights and rise mornings feeling miser able, dragged out and hardly able to face the day's work. Myriada the sullow themselves to drift towards the awful verge of ineabity or paralysis without knowing that the feelings and sensations they experience are fast hurrying them on to litter mental collapse and absolute pro-

tration of perce power.

It is folly to fly to the use of opiates, for they are followed by even worse effects. There is one sure way to cure sicepiessness, and that is by the use of Dr. Greens's Nervura, the great brain and nerve invigorant, which is a purely vegetable remedy and perfectly harmless. It may be given to infants, children or the most delicate invalids without fear. It soothes, calms and quiets the weakened, irritated and overwrought nerves, producing perfect repose and refreshing, natural alcep; at the same time it builds up and tones up the shattered nerves and gives renewed it e. sirength, witality and rigor to the system. It can by obtained at any druggist's for \$1 per battle.

For six or soven years I have been troubled with a numbrees in my right hand and arm. It was so had it seemed as if it were dead at times, when I would go to bed my whole right side would have a numb feeling, and I was mable to sleep. But by the use of the widerful Dr. Girsone's Nervara I can now also; as well, as I even did and am perfectly cured. Dr. Green's Nervara is the only medicine that has ever done ms any good, and I have tried many.

44 Vanderbilt ave., Brooklys, N. V.

Dr. Greene, who prepares this wonderful nerve resto ative, is the most successful specialist in the cure of pervous diseases, and he may be requalited, free of charge, at his office, 35 West 14th st., New York, per sonally or by letter.

ANN O'DELIA HAS RETURNED. She Will Produce Spirit Pletures at the Grand Opera-House To-Night. Mme. Ann O'Delia Diss Debar, who so mys-

teriously disappeared a few days ago, has been materialized by Pros. Herrmann and is again a resident of this city. Not only has she been materialized, but her spook-producing faculties have in no way suffreed by her short absence, and she will for the first time in this city give an exhibition of her spirit-picture producing.

The rather corputent high priestess will posi-tively appear at the Grand Opera-House to-night in conjunction with Prof. Herrmann, and will produce a spirit picture in full view of the audience.

An Aged Woman Drops Dead. Mrs. Margaret Maher, eighty years old, while returning to her home, 480 Baltic street, Brook-iyn, last evening, dropped dead on the sidewalk in Baltic near Nevins street.

MALCOLM BELL.

COPTRIGHT, 1889.-BELFORD, CLARKE & COMPANY.

John Stuart had retired to his apartments, locked and boiled himself in and mysteriously disappeared. After an interval of eighteen months he as mysteriously reappeared. He relates a weird story to his friend. Stuar was a Scotchman, and was possessed of clairvoyant powers. He was himself convinced as a youth of his peculial
